

All,

The policy of utilizing every other window work station is still part of the USPS Social Distancing plans. Below is an email from USPS Labor Relations on Plexiglass being installed between window work stations. Note that it says in units "too small to utilize every other window station." Please continue to enforce the "every other station" and where necessary demand plexiglass be installed between stations.

Please Disseminate.

//=====

Vance,

On the Plexiglas separations for retail units that are too small to utilize every other window station, HQ Retail confirms that the local District may purchase and install these separations. It is a local purchase item, to be authorized and purchased locally.

Thanks
